

MAT Terminal Cloning Utility

Cloning installation steps:

1. Place the appropriate Clone.exe on an SD card.
 - Version for CE 4.1
 - Version for CE 4.2 / 5.0
2. Insert SD card into the MAT
3. Run Clone.exe
4. Copy From = clones the current device.
5. Copy To = re-images the current device from the previous Copy From.
6. Remove Clone = erases the clone files currently resident on the SD card.

Notes:

- Follow all onscreen instructions during the Cloning process.
- AC power should be applied during the Cloning process (if possible).
